COFFEE

INGREDIENT & NUTRITION GUIDE (DRINKS)

2026

Version 4: 26th August 2026

Please speak to a member of our team before ordering if you have any allergies or dietary requirements. All products stored in our chillers have a back of pack label with a full ingredients list with allergens highlighted.

Our food is handmade in our own busy kitchen and behind the counter in stores, where we handle many ingredients including nuts. If you have a severe allergy, our food may not be suitable for you.

Whilst we do our best to manage allergens we cannot guarantee that any of our food or drinks are 100% allergen-free or suitable for those with allergies, due to the risk of cross-contamination.

Our vegan food is made to a vegan recipe but is not suitable for those with milk or egg allergies.

Please check this information regularly as we're always working on our products, so our recipes may change from time to time. If you have any dietary requirements or allergies, please check product labels and our allergen guide every time you order to ensure you have the most up-to-date information on the ingredients and allergens in our products.

This information is updated regularly to reflect our procedures instore.

The Food Standards Agency regards the following ingredients and their derivatives as allergens:

- Peanuts
- Sesame
- Crustaceans
- Egg
- Lupin
- Mustard
- Soya
- Tree Nuts
- Celery & Celeriac
- Fish
- Milk
- Mollusc
- Sulphites
- Cereals containing gluten

This guide will provide allergen information for UK based SOHO Coffee branded stores.

Please ensure you take extra care to identify all the possible allergens present in our food.

If you are interested in an ingredient that is not one of the allergens we list, check the label on the individual product, or look in our Nutritional Matrix.

Coffee, Tea, Matcha, Hot Chocolate and Milk Alternatives

At Soho Coffee, great coffee matters to us, and so does the health and wellbeing of our customers.

Our busy counters handle multiple ingredients and use shared equipment. Although we take care to keep ingredients separate, we cannot guarantee that any item, including our drinks, is completely allergen-free.

We offer a range of alternative milks. Our baristas purge and wipe the coffee machine's steam wands between uses. However, trace amounts of milk and other allergens may remain after cleaning. Also, due to the steam involved during heating milk, milk and alternative milk droplets may get sprayed onto other components of the coffee machine. If you have a severe allergy, any of our hot drinks and iced coffees may not be suitable for you.

Our recipes may change from time to time. If you have any dietary requirements or allergies, please check product labels and our allergen guide every time you order to ensure you have the most up-to-date information on the ingredients and allergens in our products.

Please speak to a member of our team before ordering if you have any allergies or dietary requirements.

There may be occasions when we temporarily change the brand of milk alternatives available in our stores. If you have any dietary requirements, please speak to a member of our team, who will be happy to show you the milk alternative currently in use so that you can check the product label for relevant ingredients and information.

For allergens including cereals containing gluten see ingredients in **BOLD CAPITALS**. Some of our food range is handled by our baristas and whilst we try to keep things separate there is no guarantee that any of these items are allergen free. The allergen information for all our packaged and loose bakery products are detailed within the booklet. Please remember to check this information regularly as we're always working on our products. For more allergen information, please ask your barista. Adults need around 2000kcal a day
